

Bulawis Spring Resort

Bulawis is one of Calamba's best and popular attractions. It is a legend to everyone who visits the place. A trademark of beauty that gives a whole new experience.

Bulawis has a river outside the place. There you can also see the so-called "tubod" or a water coming from the river that is being used by the people to wash their clothes.

"A haven of enjoyment and possibilities" as natural springs give life to the pool. "Along the river-gifted" with the splendor of nature. It is the ideal of reunions, church groups, trainings, seminars, retreats, camps, parties of all kinds of banquets.

Bulawis in itself is a luxury as one feels comfortable in the "cozy atmosphere of efficient service and warm smiles".

As far I'm concerned, I have nothing to say about Bulawis Spring Resort it's because of its nature-loving place.

We keep clean organize and safe by throwing our garbage properly. We will be more than willing to make an effort to protect our Earth. And will be able to protect and preserve this for our posterity.

You can see in our photo we pick-up the all garbage beside the river. To maintain the beauty of the place by just cleaning and caring the falls.
