

Camiguin Island

Camiguin Island is said to be “Born of Fire”. It has been known as a volcanic island since it has 7 volcanoes unmatched anywhere else in Southeast Asia. Camiguin is believed to be one of the Philippines most beautiful island. It is like a virtual paradise as where the island allows visitors to experience a sample of untouched beauty in its entirety.

Camiguin generally has a very good weather with seasonal rain showers enhancing its fresh green environment. The place is very much a nature-lover and very clean where you can really appreciate the place. Every surrounding is cared by every people where you can see people cleaning in the streets. The people maintain the beauty of place by just cleaning and caring the place.

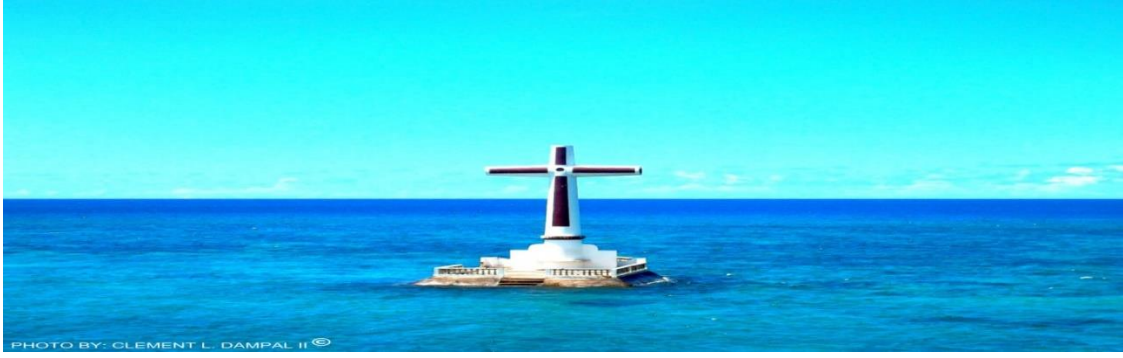

Camiguin Island is a tiny island of lunanaut forests, volcanic grandeur, eternal hot and cold springs, pristine patches of black and white beaches, majestic waterfalls, exotic marine life, blue-ridge mountains, tranquil surroundings and idyllic lifestyle. Camiguin has a glorious past, and is inhabited with jovial people.

Camiguín's rare and unique tourist attractions that I have visited and experienced are the following:

- (1.) Sunken Cemetery where you can see a large cross marks a cemetery swept into sea last 1871. From here it is a perfect place to watch the wonderful sunset over the ocean.
- (2.) Sto. Niño cold spring has a terrific huge pool of cold spring water. The area has native stores, picnic huts and toilets for visitors and guests.
- (3.) Mt. Hibok-hibok as you can see in the picture, where 1250, meters high above sea level.
- (4.) Hot Spring Resort where you can experience relaxing water. The water is warm that you can make you feel better. The last one is the Station of the Cross where you can find there the Christification of Jesus Christ. It has 12 station before you reach the last station you can encounter a long ladder.

Camiguín continues its existence sheltered from and unfazed by the virulent pressures of today's accelerated lifestyles. As the one who experienced the beauty of Camiguín, you won't regret that you've visited the place.
